

100 Ideas For Teaching Thinking Skills Somtho

A step-by-step program that shows parents, simply and clearly, how to teach their child to read in just 20 minutes a day.

One hundred practical and inspiring ideas for developing creativity and literacy from Foundation Stage through to Key Stage 2. >

This title takes a skills-based approach, with each section suggesting general ideas to use in everyday classroom teaching, including specific examples of how these can be used with a variety of modules from elementary school through to high school.

The latest title in the successful 100 Ideas series provides a multitude of techniques for getting primary school pupils really enthusiastic about mathematics. >

From the creator of The Literacy Shed, 100 Ideas for Primary Teachers: Literacy is packed with new, interesting and practical ideas for new teachers as well as those whose classroom practice needs reinvigorating. The book covers all aspects of literacy in primary school, with sections on grammar, reading comprehension and writing skills. These sections take teachers from the basics through to some more complicated skills within literacy plus ideas for using fiction and non-fiction, the classics and Shakespeare. There is an emphasis on visual literacy and film literacy as it has so many benefits for students, in particular boys, who may be reluctant readers and writers.

100 IDEAS: Quick - Easy - Inspired - Outstanding Managing behaviour in the primary classroom can be a challenge, but in this brand new book, Molly Potter offers 100 practical ideas and strategies for managing the range of difficult behaviours that you might face as a primary teacher. Whether you are new to the profession or an experienced teacher, there will be ideas in this book for you, including strategies for solving individual pupil behaviour problems as well as whole-class approaches. The ideas are creative, tried-and-tested and easy to implement. The book includes tips on how to create a positive learning and advice on ensuring your attitude and teaching approaches encourage good behaviour. It introduces a variety of procedures to put in place in your classroom, strategies for dealing with disruptive behaviour and also touches on the causes of extreme behaviour. Molly Potter's ideas are full of examples and subtle changes you can make to your practice straight away to help you successfully manage all types of behaviour in the primary classroom.

Useful and resourceful - this book is ideal for trainees, NQTs and experienced teachers alike. *100 inspirational ideas on teaching, learning and assessing design and technology *Each one has been successfully tried and tested *Ideas range from understanding the place design and technology has in the modern school to creative teaching strategies.

100 Ideas For Teaching Thinking Skills 100 Ideas for Teaching Geography Bloomsbury Publishing

100 Ideas for Primary Teachers: Numeracy Difficulties and Dyscalculia provides specially-designed games and activities to help build firm foundations in basic number concepts. All the ideas have been tried-and-tested in specialist and mainstream schools and are designed to encourage children to talk about numbers in a natural way using everyday contexts. The book begins with a focus on counting skills, before moving on to place value structure, multiplication and division. As well as teaching key facts, the ideas in this book will develop pupils' understanding so that they become flexible thinkers who can use numbers to solve a variety of mathematical problems. The ideas require minimum preparation and resources, and are perfect for use in mainstream and specialist classrooms, individual tuition sessions or as homework assignments.

Split into sections on grammar, vocabulary, speaking, listening, reading, writing, translation and revision, 100 Ideas for Secondary Teachers: Outstanding MFL Lessons presents tried-and-tested ideas that cover all aspects of the modern foreign languages (MFL) curriculum. Experienced MFL teacher, Dannielle Warren, shares interactive games and activities to support and challenge all students learning a modern foreign language. This accessible resource presents suggestions for helping students revise effectively and strategies for marking and feedback to enable their progress. It is suitable for all MFL teachers, regardless of the language they teach, and includes examples in French, Spanish and German. With online resources and ideas ranging from pass the parcel to drawing dictation, 100 Ideas for Secondary Teachers: Outstanding MFL Lessons is ideal for all teachers in need of some inspiration and fresh ideas.

Questioning is key to effective teaching and learning, yet practical questioning strategies that are immediately useable in the classroom can be hard to come by. 100 Ideas for Primary Teachers: Questioning presents practical strategies, games and activities not only to help teachers improve their own questioning in the classroom, but also to allow pupils to develop an understanding of how they too can ask effective questions to develop their learning. Using philosophical approaches including ownership, authenticity, balance and Socratic principles, Peter Worley, co-founder of The Philosophy Foundation, provides guidance and ideas on how questioning can help pupils reach the next step and activate their own thinking. He also encourages teachers to reflect on their practice and the effect of questioning on children's progress. The ideas in this book are applicable to all subjects in a primary teacher's curriculum and are ideal for establishing good questioning strategies and a solid understanding of this core element of teaching.

The educational underachievement of boys is a concern for educational professionals throughout the UK, and so is consistently at the top of most schools' agendas. There is no quick fix to tackle this issue and absolve it completely. There are, however, countless ways of addressing the issue which will help teachers support the boys in their class to reach their full potential. In his new book, established writer on boys' underachievement Gary Wilson gives teachers a way to tap into what is going on inside boys' heads, their experiences and their way of looking at the world around them, and how to value and build upon this in their practice to ensure they get the most of out their male students. Packed with practical lesson plans, activities and strategies, plus suggestions of how to take these ideas further, this book is ideal for all primary teachers who are looking to motivate boys in the classroom and move a step closer to closing the gap between male and female achievement in school.

100 Ideas for Secondary Teachers: Gifted and Talented will provide a rich package of materials and ideas at an economically attractive price with the added attraction that for the time challenged teacher, little or no work needs to be done in preparing and presenting the enrichment activities within the book

The development of mindfulness in the classroom arms children with life-long skills that support their current and future mental health and well-being. However, with an ever-growing curriculum, planning for yet another aspect within a school day can feel like an overwhelming task. This book provides teachers with quick, easy and simple ideas to support the development

of mindfulness as an integrated part of the school day without compromising the everyday demands of the primary curriculum and the classroom. 100 Ideas for Primary Teachers: Mindfulness in the Classroom is filled with simple tried and tested activities that, when used in conjunction with each other in everyday practice, develop positive mental health skills for all children, including those with ADHD and Autism Spectrum Disorders.

Coding comprises half of the National Curriculum strands for computing, and 100 Ideas for Primary Teachers: Coding is packed with resources that will give every teacher the confidence to deliver it. The easy-to-follow and practical activities in this book will be invaluable for all teachers, whether they are new to coding and just getting to grips with the basics, or are more experienced and wish to expand their repertoire. All the ideas have been carefully selected and written to be appropriate for the widest range of pupils' ages and abilities, and to be used with most coding platforms and devices – making them compatible with any existing scheme. Readers can also access and download additional free resources and templates online – 100 ideas is just the start!

100 IDEAS: QUICK - EASY - INSPIRED - OUTSTANDING The move from primary to secondary school can be an anxious and scary time for a lot of children and is often the cause of poor or little academic progress for some time after the transition. Develop your understanding of the worries children will face and support your class through this difficult time using this comprehensive collection of quick-to-implement activities and teaching strategies. Molly Potter, an experienced primary teacher, suggests the type of information that can be gathered from secondary schools to help familiarise pupils with the next stage of their education, as well as activities that will help address their main anxieties, such as fear of bullying and getting lost. The ideas will help children to feel more positive about the move, and there is also advice on how to support parents and carers through the transition process. If you are a Year 6 teacher or if you are responsible for secondary transfer your school, this book is for you. The activities and ideas can be used to create an extremely effective transition package for your pupils that will thoroughly prepare them for their move to secondary school. Includes: Teaching tips, taking it further ideas, bonus ideas, quotes from teachers and pupils, tips for involving parents and carers. All Mike's ideas have been tried and tested at the chalkface. This second edition will be at least 20% bigger and will contain ideas which range from simple addition to using and applying trigonometry, from naming 2D shapes to exploring the intrigues of 3D solids.

Students often think that science is a boring and difficult subject with no relevance to their every day lives. 100 Ideas for Teaching Science contains creative ideas on putting the 'wow' factor back into science lessons and for showing kids how relevant science is.

Experienced trio Adam Bushnell, Rob Smith (founder of The Literacy Shed) and David Waugh present 100 quick, exciting and inspiring writing activities for the primary classroom. Focusing on the underpinnings of literacy, including grammar, spelling and syntax, this must-have book provides ideas for '30-minute writes' – fun and engaging writing activities that can be completed within 30 minutes. The ideas can be completed in a standalone literacy session focusing on a particular writing skill, or incorporated into a longer session relating to literacy or even other subjects. With cross-curriculum links to blend writing and other subject areas such as history, art, PE, music and more, 100 Ideas for Primary Teachers: Writing is ideal for all teachers looking for fresh, invigorating ideas that have been tried and tested in primary classrooms.

Making your lessons fun, engaging and effective for all learners, including those with dyslexia, can be challenging and you can soon run out of ideas. This book offers 100 practical, ready-to-use activities to help all primary teachers with their every day lesson planning. The tried-and-tested activities cover all the key areas of the primary curriculum, including maths, spelling and creative writing, plus a wide range of ideas for teachers on differentiation, memory strategies and planning for learning. This new book is essential for all primary teachers and SENCOs who want to ensure that they are continually providing for all children in their care. **INCLUDES:** Teaching tips Taking it further ideas Quotes from teachers and pupils Bonus ideas Online resources The word 'revision' can strike fear into the heart of teachers and students alike! The exam cycle in today's modern education system can feel relentless, resulting in students suffering from information overload and exam fatigue. But it doesn't have to be like this! John Mitchell strongly believes that revision can be a opportunity to deepen students' understanding of a topic in an innovative, collaborative, and fun way - you just need to think outside the box! In this brilliant book, John Mitchell offers a diverse range of activities, games, tips and tricks that teachers can use in the classroom to help guide students through this stressful period. By combing theory with strategies tried and tested in the classroom, it will help teachers to create a culture where students are encouraged to review and reinforce their learning. This consistent approach means that revision becomes an everyday process rather than one that is just used in the run up to exams. From adaptations of well-known games, such as Connect Four and Runaround, to brand new activities, there are ideas that are suitable for very learning style and subject. 100 Ideas for Secondary Teachers: Revision will help you to prepare students for exams effectively, alleviate stress, and reintroduce fun into your revision sessions.

This book provides solutions for lesson planning. It not only provides easily understood practical ideas but also sets them in a coherent overall framework based on the ideas that planning and preparation are part of a total cyclical process involving pedagogy, curriculum, learning and assessment.

Learning how to be critical and how to think for oneself are vital elements of becoming an independent learner. Critical thinking could be thought of as a tool box of skills which enables us to think more deeply, clearly and logically about our beliefs; providing a platform for making sound and valid decisions. Not only will this book help you to develop your students, but it will also further develop your own critical thinking. Each chapter contains an illustrative story to help apply the abstract ideas, such as rational thought and moral and ethical reflection, to concrete, everyday situations. There is also a complete children's story at the end of the book to help you introduce philosophy to children. This book explains the essential elements of critical thinking and why it is integral to the lifelong process of becoming educated.

Ideal for trainees, NQTs and experienced teachers alike, this title contains 100 inspirational ideas on teaching religious education in the classroom.

Are you looking for exciting ways to get your students interested in computing? Do you need a break down of the basics to get your confidence up before teaching it?
