Nowhere is the complex and destructive painter Jackson Pollock (1912–1956) revealed with more compassion and insight than in this exemplary biography. Friedman, a friend of Pollock's and active in the art world, shows him to be a brilliant man tormented by his relationship to his family; an artist who worked hard through years of poverty to achieve his controversial painting technique; the first American painter to gain an international reputation for himself and for what has been variously called Action Painting or Abstract Expressionism; and a man who struggled with alcohol and the tension between gentleness and violence. Newly illustrated with seminal Pollock paintings, this book takes the reader inside the art world of New York during the '40s and '50s, when Action Painting first emerged. Friedman reveals what it meant to Pollock to experience the invasion of his studio and of the very act of painting by the external pressures of shows, reviews, films, dealers, critics, hostile publicity; and how, despite it all, Pollock created many of the most graceful and powerful paintings ever made in America.

artists. Guillermo goes back to the origins of protest art in the 19th century and pursues it to its full flourishing in the Marcos regime and its variations during the Aquino administration. It also projects the trajectory of art into the future as new issues emerge to engage the political artist.

As *The New Yorker's* genius cartoonist, Saul Steinberg was universally admired for his playful and profound images of the life and times of his adopted homeland, the USA. In *Reflections and Shadows*, the artist evokes an equally enchanting portrait of his own life, conjuring images from his childhood in poverty-stricken Romania, his artistic education in Milan and his first taste of freedom and opportunity, in Washington and New York. Written in collaboration with his close friend, the author Aldo Buzzi, *Reflections and Shadows* offers a wonderful insight into the life and work of one of the twentieth century's great talents.

A visual introduction to the culture and evaluation process of outsider art showcases numerous works, including several previously unpublished pieces by such artists as Henry Darger, William Hawkins, and Adolf Wölfi, in a volume complemented by discussions on the rising influence of outsider art and the role of mental illness in its creation. While Surrealism was becoming out of fashion in Europe in the 1930s, it enjoyed a growing popularity on the other side of the Atlantic. This text traces the history of this movement in the United States from about 1930 to 1950 by examining its manifestations throughout the country.

Yulla was born in 1911 in Berlin, Germany and raised in an Orthodox Jewish family. Albert Einstein. In 1938, escaping the Nazis with her family, Yulla came to the United States and settled in Cincinnati with the aid of her husband's cousin, Libby Holman. In 1942, separated from her husband, she came to New York City where several years later, she met and married the sculptor, Jacques Lipchitz. In later years Yulla and Lipchitz lived and maintained homes in both Italy and America. Through Lipchitz, Yulla met Pablo Picasso, Henry Moore, Marc Chagall, Alexander Calder, Marino Marini and their contemporaries. After Lipchitz' death in 1972, Yulla became more involved in her own creative work. Sculpture was the first medium of Yulla's reentry into the creative arts. By the late seventies she had begun to photograph, beginning with Polaroids. Through the lens of the camera, her artist's eyes saw a bright new unexplored world-- a world of divergent images. Since that time, Yulla's photographs have been exhibited in over eighteen photographic exhibitions around the world. Yulla's works speak to each viewer on a direct interactive, personal and universal level. Now, for the first time in this book, the full scope and magnitude of Yulla's photography emerges. Yulla Lipchitz lets her inventive imagination play with the idea of reconstructing the image to give the effect of optical illusions. The result is a transformation of the ordinary into the extraordinary.

A history of the Hamptons chronicles its evolution while portraying some of the artists who spent time there, from Winslow Homer and Lee Krasner to Herman Melville, F. Scott Fitzgerald, and John Steinbeck, in a volume that includes reproduced artwork and archive photographs. In this first book of interviews with visual artists from across Texas, more than sixty artists reflect on topics from formative influences and inspirations to their common engagement with found materials. Beyond the art itself, no source is more primary to understanding art and artist than the artist's own words. After all, who can speak with more authority about the artist's influences, motivations, methods, philosophies, and creations? Since 2010, Robert Craig Bunch has interviewed sixty-four of Texas' finest artists, who have responded with honesty, clarity, and—naturally—great insight into their own work. None of these interviews has been previously published, even in part. Incorporating a striking, full-color illustration of each artist's work, these absorbing self-examinations will stand collectively as a reference of lasting value.

Based on a symposium held in 1999 during The Museum of Modern Art's retrospective, this volume presents nine critical essays offering dramatically different ways of understanding Pollock's art and influence. The essays were written by Robert Storr, Pepe Karmel, James Coddington and Carol Mancusi-Ungaro, Kirk Varnedoe, T. J. Clark, Jeremy Lewison, Rosalind Krauss, and Anne Wagner.

colorful portraits: an uncanny blend of realism and abstraction The latest book from Los Angeles-based artist Jonas Wood (born 1977) follows the style of his previous publications *Sports Book* and *Interiors*, this time taking up the subject of portraiture. *Portraits* compiles the many works completed over Wood's career, done in a variety of media, and with a range of subjects and sitters, including paintings of artist friends, self-portraits, intimate familial moments in domestic interiors and the artist's own cultural and sports heroes, from basketball players and boxers to Philip Guston and Pablo Picasso--though Wood's esteem for these figures is beside the point, as he notes: "I don't depict only those athletes who have meaning for me. Sometimes it is about the images being interesting, or that I like the color of the card, and sometimes it is about loving the athlete." Wood's subjects are presented in bright light with lively color, graphic flatness and minute detail rendered impeccably. *Jonas Woods: Portraits* reveals an intimate look at the life of an artist at the forefront of contemporary painting.
