This book tackles questions about the reception and production of translated and untranslated Russian theatre in post-WW2 Britain: why in British minds is Russia viewed almost as a run-of-the-mill production of a Chekhov play. Is it because Chekhov is so dominant in British theatre culture? What about all those other Russian writers? Many of them are very different from Chekhov. A key question was formulated, thanks to a review by Susannah Clapp of Turgenev's *A Month in the Country*: have the British staged a 'Russia of the theatrical mind'?

This addition to the highly successful *Contemporary Cultures* series covers the period from period 1953, with the death of Stalin, to the present day. Both 'Russian' and 'Culture' are defined broadly.

'Russian' refers to the Soviet Union until 1991 and the Russian Federation after 1991. Given the diversity of the Federation in its ethnic composition and regional characteristics, questions of national, regional, and ethnic identity are given special attention. There is also coverage of Russian-speaking immigrant communities. 'Culture' embraces all aspects of culture and lifestyle, high and popular, artistic and material: art, fashion, literature, music, cooking, transport, politics and economics, film, crime – all, and much else, are

covered, in order to give a full picture of the Russian way of life and experience throughout the extraordinary changes undergone since the middle of the twentieth century. The Encyclopedia of Contemporary Russian Culture is an unbeatable resource on recent and contemporary Russian culture and history for students, teachers and researchers across the disciplines. Apart from academic libraries, the book will also be a valuable acquisition for public libraries. Entries include cross-references and the larger ones carry short bibliographies. There is a full index.

Oh this ain't a farm. This is a loading dock. No such things as farms anymore, not around here. A chicken farm in rural England. New boy Tim has just arrived for his first shift. The job is pretty simple: grab chickens seven at a time by their legs and ram them into cages for shipping. All of this in the dark, stomping around in ankle-deep chicken shit, muck and mud. Tim's teammates are old-timers, with cigarettes dangling from their lips and pantyhose up their arms to protect their skin. Feathers cling to clothes. This band of survivors doesn't want much: just to stay in the countryside, catch the chickens, and earn the best living they can. But the chickens are dying, rotting from the inside-out like hot fruit just hours after they arrive. As disease spreads and pressure mounts, enter Oscar, the meticulous

poultry inspector . . . A hard-hitting exploration of the human cost of our enormous appetite for cheap meat. Winner of the Curve Leicester's Playwriting Competition and first seen as a staged reading at the Finborough Theatre's annual Vibrant: A Festival of Finborough Playwrights, *Chicken Dust* marks the full-length debut of a new playwright. It received its world premiere at the Finborough Theatre on 1 March 2015.

Amidst the turmoil of political revolution, the stage directors of twentieth-century Russia rewrote the rules of theatre making. From realism to the avant-garde, politics to postmodernism, and revolution to repression, these practitioners shaped perceptions of theatre direction across the world. This edited volume introduces students and practitioners alike to the innovations of Russia's directors, from Konstantin Stanislavsky and Vsevolod Meyerhold to Anatoly Efros, Oleg Efremov and Genrietta Ianovskaia. Strongly practical in its approach, *Russian Theatre in Practice: The Director's Guide* equips readers with an understanding of the varying approaches of each director, as well as the opportunity to participate and explore their ideas in practice. The full range of the director's role is covered, including work on text, rehearsal technique, space and proxemics, audience theory and characterization. Each chapter focuses on one director, exploring their historical context, and combining an examination of their directing theory and technique with practical exercises for use in classroom or rehearsal settings. Through their ground-breaking ideas and techniques, Russia's directors still demand our attention, and in this volume they come to life as a powerful resource for today's theatre makers.

In *Putin's Footsteps* is Nina Khrushcheva and Jeffrey Tayler's unique combination of travelogue, current affairs, and history, showing how Russia's dimensions have shaped its identity and culture through the decades. With exclusive insider status as Nikita Khrushchev's great grand-daughter, and an ex-pat living and reporting on Russia and the Soviet Union since 1993, Nina Khrushcheva and Jeffrey Tayler offer a poignant exploration of the largest country on earth through their recreation of Vladimir Putin's fabled New Year's Eve speech planned across all eleven time zones. After taking over from Yeltsin in 1999, and then being elected president in a landslide, Putin traveled to almost two dozen countries and a quarter of Russia's eighty-nine regions to connect with ordinary Russians. His travels inspired the idea of a rousing New Year's Eve address delivered every hour at midnight throughout Russia's eleven time zones. The idea was beautiful, but quickly abandoned as an impossible feat. He correctly intuited, however, that the success of his presidency would rest on how the country's outback citizens viewed their

place on the world stage. Today more than ever, Putin is even more determined to present Russia as a formidable nation. We need to understand why Russia has for centuries been an adversary of the West. Its size, nuclear arsenal, arms industry, and scientific community (including cyber-experts), guarantees its influence.

In this monumental work, Laurence Senelick and Sergei Ostrovsky offer a panoramic history of Soviet theater from the Bolshevik Revolution to the eventual collapse of the USSR. Making use of more than eighty years' worth of archival documentation, the authors celebrate in words and pictures a vital, living art form that remained innovative and exciting, growing, adapting, and flourishing despite harsh, often illogical pressures inflicted upon its creators by a totalitarian government. It is the first comprehensive analysis of the subject ever to be published in the English language.

Exploring the world of the theatre in Russia after Stalin, the authors highlight the social and political events which shaped Russian drama and performance and focus on major directors and practitioners, including Oleg Yefremov and Lev Dodin.

While critics have been quick to draw parallels between Vampilov and antecedents, including Anton Chekhov and Nikolai Gogol, his plays reflect most clearly his own personal vision of the drab and hypocritical world of the post-Stalin years. Free of the stock characters of Socialist Realism, Vampilov depicts the inhabitants of nameless provincial towns as they struggle to endow

their lives with meaning. At the same time, Vampilov spares us that special 'Russianness' that makes the typical Soviet play inaccessible to outsiders. While the Russian situation is ever present, it never intrudes in such a way as to make the work interesting only because of its social or political revelations. In fact, it is the universality of his themes that have made his plays so appealing to foreign audiences. Aleksandr Vampilov: The Major Plays includes the following works in translation: Farewell in June, The Elder Son, Duck Hunting, Provincial Anecdotes: An Incident with a Paginator and Twenty Minutes with an Angel, and Last Summer in Chulimsk.

Includes information about playwrights, important actors and directors, theaters, companies, movements, events, technology, and other aspects of theater.

This book considers the hundred years of re-writes of Anton Chekhov's work, presenting a wide geographical landscape of Chekhovian influences in drama. The volume examines the elusive quality of Chekhov's dramatic universe as an intricate mechanism, an engine in which his enigmatic characters exist as the dramatic and psychological ciphers we have been de-coding for a century, and continue to do so. Examining the practice and the theory of dramatic adaptation both as intermedial transformation (from page to stage) and as intramedial mutation, from page to page, the book presents adaptation as the emerging genre of drama, theatre, and film. This trend marks the performative and social practices of the new millennium, highlighting our epoch's need to engage

with the history of dramatic forms and their evolution. The collection demonstrates that adaptation as the practice of transformation and as a re-thinking of habitual dramatic norms and genre definitions leads to the rejuvenation of existing dramatic and performative standards, pioneering the creation of new traditions and expectations. As the major mode of the storytelling imagination, adaptation can build upon and drive the audience's horizons of expectations in theatre aesthetics. Hence, this volume investigates the original and transformative knowledge that the story of Chekhov's drama in mutations offers to scholars of drama and performance, to students of modern literatures and cultures, and to theatre practitioners worldwide.
