It starts out as the perfect family adventure - until Michael is swept overboard. He's washed up on an island, where he struggles to survive. Then he discovers that he's not alone. His fellow-castaway, Kensuke, is wary of him. But when Michael's life is threatened, Kensuke slowly lets the boy into his world. A lonely hunter living in the wilderness beside the sea gains a family made up of a mermaid, a bear, a lynx, and a boy.

A memoir about an unusual upbringing in a family fanatically devoted to honesty, and what came next If you're like most people, you probably lied today. It may have been a small one, some insignificant falsehood meant to protect someone's feelings or guard your true thoughts. Now imagine if your parents had raised you to never lie, if they'd ingrained in you a compulsion to never, under any circumstances, withhold the truth or fail to speak your mind. It might be wonderfully freeing. Everyone else might not appreciate it so much. To Be Honest is Michael Leviton's extraordinary account of being raised in a family he calls a "little honesty cult." For young Michael, his parents' core philosophy felt liberating. He loved "just being honest." By the time he was twenty-nine years old, Michael had told only three "lies" (by most people's understanding of the word) in his entire life. But this honesty had consequences—in friendships, on dates, and at job interviews. And when honesty slowly poisoned a great romance, Michael decided there had to be something to lying after all. He set himself the task of learning to be as casually dishonest as the rest of us. To Be Honest is a tender and darkly comic memoir about what it means and how it feels to tell more than the truth.

The concepts of Murray Bowen, one of the founders of family therapy and the originator of family systems theory, are brought together here in an integrative fashion. Michael Kerr (who worked with Bowen for many years) and Bowen propose that the enormously complex task of evaluating a clinical family can be orderly when it is grounded in family systems theory. Using family diagrams and case studies, the book is devoted to an elegant explication of Bowen theory, which analyzes multigenerational family relationships and conceptualizes the family as an emotional unit or as a network of interlocking relationships, not only among the family members, but also among biological, psychological, and sociological processes. Bowen's persistent inquiry and devotion to family observation, in spite of obstacles and frustrations, have resulted in a theory that has radically changed our ways of looking at all behavior.

Ten-year-old Mamie's class is given an assignment to write letters to the astronauts. All the girls write to Neil Armstrong ("So cute!") and all the boys write to Buzz Aldrin ("So cool!"). Only Mamie writes to Michael Collins, the astronaut who will come so close but never achieve everyone else's dream of walking on the moon, because he is the one who must stay with the ship. After school ends, Mamie keeps writing to Michael Collins, taking comfort in telling someone about what's going on with her family as, one by one, they leave the house thinking that someone else is taking care of her—until she is all alone except for her cat and her best friend, Buster. And as the date of the launch nears, Mamie can't help but wonder: Does no one stay with the ship anymore? In 1845 a blight of unknown origin destroyed the potato crop in Ireland triggering a series of events that would change forever the course of Ireland's history. The British government called the famine an act of God. The Irish called it genocide. By any name the famine caused the death of over one million men, women, and children by starvation and disease. Another two million were forced to flee the country. With the famine as a backdrop, this is a story about two families as different as coarse wool and fine silk.

Michael Ranahan, the son of a tenant farmer, dreams of breaking his bondage to the land and going to America. The passage money has been saved. He's made up his mind to go. And then the blight strikes and Michael must put his dream on hold. The landlord, Lord Somerville, is a compassionate man who struggles to preserve a way of life without compromising his ideals. To add to his troubles, he has to deal with a recalcitrant daughter who chafes at being forced to live in a country of "bog runners." *In The Time Of Famine* is a story of survival. It's a story of duplicity. But most of all, it's a story of love and sacrifice.

Anne Michaels' spellbinding debut novel has quickly become one of the most beloved and talked-about books of the decade. As a young boy during the Second World War, Jakob Beer is rescued from the mud in Poland by an unlikely saviour, the scientist Athos

Roussos, and he is taken to Greece, then, at war's end, to Toronto. It is here that his loss gradually surfaces, as does the haunting question of his sister's fate. Later in life, as a translator and a poet, and now with the glorious Michaela, Jakob meets Ben, a young professor whose own legacies of the war kindle within him a fascination with the older man and his writing. *Fugitive Pieces* is a work of rare vision that is at once lyrical, sensual, profound. With its vivid evocation of landscape and character, its unique excavation of memory and time, it is a wholly unforgettable novel that draws us into the lives of its characters with compassion and recognition.

Few of the men and women who came to California after the discovery of gold had the opportunity or the inclination to record their thoughts about family life. Their family experience, like that of most nineteenth-century Americans, is obscured by time and an absence of sources.

Ernst Cassirer occupies a unique space in Twentieth-century philosophy. A great liberal humanist, his multi-faceted work spans the history of philosophy, the philosophy of science, intellectual history, aesthetics, epistemology, the study of language and myth, and more. *The Philosophy of Symbolic Forms* is Cassirer's most important work. It was first published in German in 1923, the third and final volume appearing in 1929. In it Cassirer presents a radical new philosophical worldview - at once rich, creative and controversial - of human beings as fundamentally "symbolic animals", placing signs and systems of expression between themselves and the world. This major new translation, the first for over fifty years, brings Cassirer's magnum opus to a new generation of students and scholars. Volume 1: *Language* is a fascinating examination of arguably the most fundamental of these systems of expression: human language. Cassirer traces the problem of language and expression far back in the history of philosophy, considering the work of the early Greek rationalists. He then examines the later empiricist tradition, up to the romantic tradition in the nineteenth century tackling fundamental questions about representation, signification and expression as well as language and conceptual thought in mathematics and science. Correcting important errors in previous English editions, this translation reflects the contributions of significant advances in Cassirer scholarship over the last twenty to thirty years. Each volume includes a new introduction and translator's notes by S. G. Lofts, a foreword by Peter Gordon, a glossary of key terms, and a thorough index.

Shawn Henning's new book is a powerful and overwhelming tribute and legacy to Michael Jackson. In one book, he's collected love letters, reflections, eulogies, poems, essays and drawings from people throughout the world who have a special appreciation for the King of Pop, Michael Jackson. I was particularly impressed at the diversity of material, from so many different countries and cultures – all of it heartfelt and illuminating. In *We Love You More*, we learn about the many different ways that Michael Jackson affected people from all walks of life. The participants talk about how Michael's music, creativity and public example affected their lives and helped them to be better people. The contributions are a wonderful cathartic output to help to come to terms with the loss of Michael's huge talent. They will not only comfort those who have written them, but those who read them. People will learn about the experiences they have in common, with people throughout the world, who followed Michael's career, his music, his good deeds and the example he set for this generation and generations to come. The book will also be of comfort to Michael's own family. They will see that the spirit of Michael will continue in people everywhere and in many ways and for many reasons. It's also fascinating to learn what people have to say about different songs and what they meant to their lives. I'm impressed by the diverse elements in the book... from eulogies, to memories to poems and beautiful drawings and paintings and even photo montages at the end. Mr. Henning... you've done a wonderful service to the Michael Jackson fan community and I commend you. Sincerely yours, Larry Nimmer

Substance Abuse and the Family demonstrates what it means to view addiction through a systems lens by considering biology and genetics, family relationships, and larger systems. Throughout the text, Michael D. Reiter shows how to examine a person's predilection to become addicted, his or her social environment around substance use, the functionality of his or her family, and various treatment options. Chapters are organized around two sections: Assessment and Treatment. The first section pays attention to how the family system organizes around substance use and abuse. Here family roles, culture, and other issues such as family violence and resilience are covered. Two chapters are also included on the neuroscience and genetics of addiction, with contributions from Jaime L. Tartar and Christina Gobin. There are also chapters on working with partial systems, using genograms, and working in a culturally-sensitive way (with contributions from Dalis Arismendi), with culture-specific consideration paid to African American, Hispanic and Latin American, Asian American, and Native American families. The second half of the book explores what a systems orientation means in practice and goes over self-help groups for individuals and families. An overview of the major family therapy theories is included, which examines intergenerational, experiential, communication approaches, strategic, systemic, and post-modern models. A separate chapter examines issues faced by both youth and adult children of alcoholics. Intended for undergraduate and graduate students, as well as beginning practitioners, this text is one of the most penetrating and in-depth examinations on the topic available. .

"This "companion" is designed to introduce a range of materials deemed to constitute the culture (or, perhaps better, cultures) of medieval England, from approximately the Norman Conquest to roughly the Reformation. The fields presented here may offer a rather unusual fit with standard courses and disciplines, but the pressures on modern frameworks are intended. It is not unusual, however, for study of early periods to offer some combination of "literature," "history," "archaeology," "art history," or other field. Studies in antiquity and the Renaissance do this regularly; and medieval studies was from the outset defined in an equally capacious frame"--
